

Prerequisites for the HDF Workshop

Pre-requisites for the Hortonworks Lab

In order to prepare for the Hortonworks Workshop, some steps can be run ahead of the session to save some time, including:

- Setup of a ssh client (Windows only)
- Create a Microsoft Azure Pass Subscription.

The above steps should take less than 30 minutes of your time. If you encounter any issues going through any of these steps, you will receive assistance during the lab to complete them.

These steps should be run from the laptop you are planning to bring the day of the workshop to ensure no issues with accessing the Azure environment.

Setup of a ssh client

If you are planning to use a Windows laptop during the workshop, please make sure it has a ssh client available. Otherwise, please download and install putty from the following link: <http://www.putty.org/>

Create a Microsoft Azure Pass Subscription

In the email containing this attachment, you will be provided a Microsoft Azure Pass. With your Microsoft Azure Pass, please create your Microsoft Azure Account using the following step by step instructions:
